Addressing this seismic shift, one of America's leading church historians shows how studying world Christianity changed and enriched his understanding of the nature of the faith as well as of its history. Mark Noll illustrates the riches awaiting anyone who gains even a preliminary understanding of

the diverse histories that make up the Christian story. He shows how coming to view human culture as created by God was an important gift he received from the historical study of world Christian diversity, which then led him to a deeper theological understanding of Christianity itself. He also offers advice to students

that, far from being an afterthought in the Bible, the call to love our neighbors and to gather people of every nation together in the worship of God is at the very core of the gospel message. Two powerful passions animate this book from beginning to end. First, this work is saturated in a deeply rooted love of the diversity of

Second, this book is dedicated to calling the North American church to take seriously its charge not simply to love the "stranger and alien" but to live as "strangers and aliens" within the American nation to which it has been called to witness to Jesus Christ.
